Dear Sir:

Enclosed is a substitute declaration for the above-identified patent application. During a recent review of the application file by applicant's attorney, it was noted that the Official Filing Receipt (Form PTO-103) does not identify the application as a continuation-in-part application of U.S. Serial No. 604,739, now U.S. Patent No. 4,630,227. In a Preliminary Amendment dated May 13, 1985, applicant amended the application to include a statement that it is a continuation-in-part application. This is in accordance with 37 C.F.R. §1.78(a). In order to ensure that the claim of priority is perfected and that any patent issuing from this application is identified as a continuation-in-part of Serial No. 604,739, applicant is submitting this substitute declaration and requests that the Examiner direct the attention of the Application Branch to this new declaration so that the correct priority information appears on the face of any patent issuing from this application.

Hagenbuch, U.S.S.N. 717,042

Signed at Chicago, in the County of Cook and State of
Illinois this 20th day of July, 1988.

Respectfully submitted,
